***Diaper Champ***

***Instruction Manual***

Read all instructions **BEFORE** assembly and **USE** of product.  
**KEEP INSTRUCTIONS FOR FUTURE USE.**

**Congratulations: you have purchased the DIAPER CHAMP, Please read all operating instructions.**

- 1. Make sure each diaper is tightly wrapped and secured to itself with waistband tape.**
- 2. Make sure all the sticky waistband tape is stuck to the diaper and that no sticky tape surfaces are exposed. this will ensure that the tape does not get stuck to the Diaper Champ.**
- 3. If you have put a diaper in the Diaper Champ, and rotated the drum, but the piston does not go down, you may lightly push the piston down by hand. If the piston seems stuck and will still not go down. DO NOT FORCE THE PISTON DOWN. First, open the cover to see if the pail is full. Then check to see if a diaper is below the piston or to the drum, and carefully remove the diaper. sometimes a piece of exposed sticky tape from the diaper makes the diaper stick.**
- 4. If the drum is hard to rotate or seems stuck, check to see if the piston has gone all the way down. DO NOT FORCE it down, but a gentle push may help. If the drum still does not rotate freely, try gently rocking the drum back and forth to free a diaper that may be stuck and has not fallen into the bag. If this does not work, open the cover and carefully remove the stuck diaper it may be necessary to remove the drum.**
- 5. If, when you close the DIAPER CHAMP'S top onto pail, the lid does not close squeeze both sides of the pail slightly until lid closes, this will only be necessary 1 or 2 times. The pail will adjust to fit properly automatically, this may occur in shipping.**

*Please: If you experience any difficulty with the use of our product or have a question regarding these instructions, please contact our Customer Service Department at (800) 328-7363 between the hours of 8:00 a.m. and 4:30 p.m. Pacific Coast Time. Please do not return the product to the store as once it is returned it cannot be re-sold and the materials and energy used to make it are wasted.*
